He published no more but devoted himself entirely to scientific pursuits, for which he had a remarkable aptitude, until his physical necessities compelled him to become a hack writer for distinguished literary men of more practical ability. He was the sole author, compiler and editor of the first edition of Webster's Unabridged Dictionary, giving not only the definitions, but the root and history of over 16,000 words derived from other languages, including all the written languages of the world-thirty in number- of every one of which he must have had some critical knowledge. Regarded in this light, it is the most wonderful literary labor ever performed by one man. No other lexicographer ever accomplished it. Dr. Johnson was the literary wonder of his age. Horace Walpole says of him: "His dictionary is a surprising of Dr. Bigelow's Positive Cure, and work for one man, but sufficient examples in foreign countries show that the work is too much for one man, and that a society alone pretend to publish from standard authorities, with the addition of purely American idioms and etymolygy, exhibiting neither originality nor research, being adapted only to the use of schools—to the learners and not to the learned-and was rejected as a standard by the British institutions of learning on account of the slang phrases, with only a local signification, which it attempted to introduce into the common English language. E. W. Marsh, of the Democrat, bought a Jas. Boss' Gold Watch case 18 years ago, and carried it until a short time ago, when I purchased it, and sold it to a customer. The case showed no signs of wear, except that natural to any case, and I am satisfied can be safely guaranteed for at least ten years more. I have sold the James Boss' Gold Watch Case for many years, and the parties who bought the first ones are carrying them to-day, as well satisfied as though they had bought a solid gold case costing twice the money. I regard them as the only cases of this kind a jeweler should sell who desires to give his customers the worth of their money or values his reputation.

In 1875, thirteen men comprised the

entire working force used in the manufacture of the James Boss' Gold Watch Case.

Now over five hundred are employed, and the number is constantly increasing. The reason of this increase is this: In the James Boss' Gold Watch Case all the metal in sight

and subject to wear is solid gold, while the re-mainder, which only lends strength to the

case, is of stronger metal than gold, giving gold where gold is needed, and strong, elastic metal where strength and

elasticity are needed, a combination pro-

ducing a watch case better than solid gold

and at one-half the cost.

Over 200,000 of these cases
have been sold, and every jeweler in the country can testify to their quality and

(Continued from last week.) How Watch Cases are Made.

This process of manufacture was invented by James Boss, who started in business in 1854, and the methods and tools used in making these watch cases are covered by patents. This is the only watch case made under this process. For many years the introduction of these goods was slow, owing to popular prejudice against "plated" goods, but gradually the public learned that the James Boss' Gold Watch Case was not a cheap gold-washed or electro-plated article, but was made of genuine gold plates of standard quality and thickness. Conscientious adherence to the determination to make the best watch case ever put on the market, and the adoption of every improvement suggested, has made the James Boss' Gold Watch Case the STANDARD. In this watch case the parts most subject to wear-the bow, crown, hinges, thumb-catches, etc., are made of SOLID GOLD. Send 2 cent stamp to Keystone Watch Case Factories, Philadelphia, Pa., for handsome Illustrated Pamphletsh James Boss' and Keystone Watch Cases are made.

It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: the entire fulfilment of its promises. The proprietors have often been surprised at the receipt of orders from remote coun-

tries, where they had never made an effort for The use for a short time of HALL'S HAIR RENEWER wenderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic prepara-tions, but remain a long time, which makes its use a matter of economy.
